4) Technical specifications

Energy efficiency

- Dishwashers with five or fewer place settings shall have an energy efficiency index lower than 0,76. This corresponds with energy class A or B as defined in Annex IV to Commission Directive 97/17/EC of 16 April 1997. (one place setting consists of a dinner plate, soup plate, dessert plate, a glass tumbler, tea cup and saucer, a knife, fork, soup spoon, dessert spoon and a teaspoon)
- Dishwashers with less than 10 place settings but more than five place settings shall have an energy efficiency index lower than 0,64. This corresponds with energy class A as defined in Annex IV to Directive 97/17/EC.

Water consumption

- The water consumption of the dishwasher (expressed as W(measured)) shall be lower or equal to the threshold as defined by the equation below using the same test method EN 50242 and programme cycle as chosen for Directive 97/17/EC:

$$W(\text{measured}) \leq (0,625 \times S) + 9,25$$

where:

W(measured) = the measured water consumption of the dishwasher in litres per cycle, expressed to the first decimal,

S = the applicable number of standard place settings of the dishwasher.

Noise

- Airborne noise from the appliance, counted as sound power, shall not exceed 53 dB (A) for free standing models and 50 dB (A) for built-in models.

Other

- The appliance shall have clear volumetric markings on the detergent dispenser allowing the user to adjust the detergent quantity used according to the type and amount of load and its degree of soil.

Evidence:

The compliance with all the criteria mentioned above can be proved with the following label:

Nordic Swan

Eu Ecolabel

In case that the tendering company can present this label, any further proof is not necessary. Any other suitable evidence from a recognized body can also be used.

5) Awarding the contract:

	<i>Criterion</i>	<i>Weight</i>
1	<i>Price</i> <i>Calculation (e.g.):</i> Lowest offered price/ stated price x 0,70	e.g. 70%
2	<i>Environmental criteria</i> (The public authority formulates the points it wants to assign to the below mentioned criteria) <i>Calculation (e.g.):</i> Total scored points / maximum number of points x 0,20	e.g. 20%
3	...	e.g. 5 %
4	...	e.g.

Environmental criteria

Energy efficiency

- The energy efficiency index as defined in Annex IV to Directive 97/17/EC of 16 April 1997 is lower than the one described in the technical specifications.
- The dishwasher shall be suitable for connection to a hot-fill water supply.

Water consumption

- The dish washer uses less water than the limit described in the technical specifications.

Noise

- Airborne acoustic noise from the machine, in terms of sound power level, is less than the level described in the technical specifications.

6) Performance clauses:

- The manufacturer shall offer a commercial guarantee to ensure that the dishwasher will function for at least two years. This guarantee shall be valid from the date of delivery to the customer.
- The availability of spare parts must be guaranteed for ten years after production of the machine has ceased.
